## **Convention Humanrights Financial Police & Republic Netherlands law,**

next to the Convention Arbitration for  
Problem-solving Justice

to  
**UNSG AntonioGuterres**

**This Treaty & Republic Netherlands law are  
written by Désirée Elisabeth Stokkel.**

By the letter of the law the InterimPrimeMinister for the Netherlands since 18nov2016.

A Future-bringers' prediction for the Evolution of Social Intelligence on Planet Earth.

Anchored in the new Constitution Republic NL.

Put into power by decree by Désirée Elisabeth Stokkel on 18nov2016.

A Fairtrade & eco Constitution for the foundation of the 1-Persons-toko in politics & justice.

<http://www.desireestokkelnl.net/uploads/5/6/2/4/56243847/constitution.republic.nl.2014.2016.icc.parliament.judiciarycouncil.lobby.king.13jan2016.pdf>

**The People on Planet Earth face a prodigious problem caused by the United Nations.**

UNSG AntonioGuterres travelled to The Netherlands in december2017 to anchor his private freedom for corruption & murder in the Dutch Monarchy, the Parliament of the Kingdom the Netherlands and the InternationalCriminalCourt., resulting in 'being a member of the Italian Maffia in Palermo'.

**This means in legal terms:**

UNSG AntonioGuterres personally refuses to conduct the United Nations Charter – Torture treaty – Human rights treaties for all civilians on Earth. And he misuses the Dictatorship The Netherlands as office for organizing his personal violations of Human rights & War crimes.

**UNSG AntonioGuterres in his UNSG-Labour contract, has following legal obligations in accordance with the Torture treaty:**

- **To protect the Dutch people against 'a life in Dictatorship Kingdom the Netherlands'** = to assist the people with the removal of the 100% criminal King in Holland, because it is the King who signs all laws & treaties ..... which determine the legal obligations for the people in the Kingdom the Netherlands & World, in accordance with the Constitution.  
The Dutch people can not obey a Mass-murderer / Serial-killer King; not even on request of the Members of Parliament – District parliament – Municipal – Police – Defence – more... NL-civilians are being killed in a hidden World = their bodies are lobbed into the oven.
- **To guarantee the Dutch people, and all Civilians on Earth, the Entitlement to Justice.** This means that UNSG Guterres has the obligation to download & install the Republic Netherlands for all People, and to upgrade it for daily use. 24/7. UNSG Guterres has the obligation to remove all criminals according to the Torture treaty.

UNSG AntonioGuterres takes sides for the Dutch Royal Family who is strongly befriended with the Italian Mafia in Palermo.

With the consequence that King Willem-Alexander..., who signs all laws & treaties for the Dutch people and other Civilisations ... maintains to conduct his criminal methods of work... He willfully blocks & sabotages the Entitlement to Justice for the Individual civilian & Organisations. King Willem-Alexander has no sense for decency, or respect for Justice... and is fine with the fact that all persons who participate in the anti-Mafia in Italy are being tortured – killed.

The Dutch Monarchy forces civilians to live & work in a lawless nation and approves of the situation that these victims reside ... a whole lifetime long in hell and will die in hell.... The parliament and Monarchy have made sure that the International Criminal Court, located in The Hague Holland... support the Dutch Monarchy with the hidden and public torture – murder on Individuals + causing damage / demolition of Organisations. According to the latest calculations on behalf of the people, the NL-Monarchy costs about 350 million euro Tax money per year.

UNSG AntonioGuterres supports both: the Dutch Monarchy and Parliament of the Kingdom the Netherlands ..... with its Criminal Judges who select Individuals for Hidden murder and makes smaller Organisations go bankrupt.... Next to his UNSG support for organized torture – murder conducted by the ICC-personnel, what intensifies the NL-demolition-process.

**From 1 January 2018 on I – Interim Prime Minister Désirée Elisabeth Stokkel – have taken over power from UNSG AntonioGuterres, now I am the only person on Planet Earth who owns the legally valid evidence that proves the personal corruption & freedom to murder on behalf of UNSG AntonioGuterres.**

<https://www.republiek-nederland-18nov2016.com/uploads/5/6/2/4/56243847/icc.unsg.2018.ipm.desireestokkel.ru.jp.ir.nk.cuba.29dec2017.pdf>

**Statemembers of the United Nations refuse to stop Dictatorship Netherlands actively; they do not conduct the UN Charter – Torture treaty – Human rights treaties.**

They make me fight against a murder attempt on my body.  
Due to this fight, I am forced – while being kept lawless – to restore the State of Law the Netherlands and to remove the criminals.

UN-memberstates keep the DictatorshipNL alive next to the RepublicNL for the making of contracts they want to own in this Lawless Tradeclimate .  
The fact that civilians are being tortured – killed during the proces of contract-making is irrelevant to them.

### **The means in legal terms:**

I – Désirée Elisabeth Stokkel – can , thanks to the criminal method of work of UNSG Antonio Guterres and all UN-memberstates with their criminal Presidents & Embassadors... implement & conduct all laws & treaties I want to guarantee for the People on Earth.

**I – Désirée Elisabeth Stokkel – determine that all laws & treaties which I produce & put into power by decree via the criminal UNSG Antonio Guterres, the Embassy of Portugal & pd@un.org, are right now legally valid for all People.**

**Each Individual civilian & Organisation in each UN-memberstate has the legal obligation in accordance with the Torture treaty:**

To conduct all laws & treaties which I – IPM & UNSG – put into power by cedree. 24/7.

Presidents – Embassadors and other persons on national territory of the UN-memberstate against whom I started an ICC law case NL – must be removed from their labour contract: they must be replaced with new Presidents – Embassadors – Persons in the labour contract who do conduct the UN charter – Torture treaty – Human rights treaties.

**The Convention Arbitration for Problem-solving Justice is no longer a Draft Treaty within the United Nations;**

it is now a complete legally valid Treaty all civilians & organisations must conduct.

**Inherent to this legal fact =**

**The Convention & Republic Netherlands law Human rights Financial Police, is to be put into power for all civilians & organisations in all communications, right now. 24/7.**

### **UN-sanctions**

Within the system of the United Nations, sanctions can not be put into law or action by UN-memberstates who support UNSG Antonio Guterres with the building of Dictatorship Netherlands and his private corruption & freedom to murder via the International Criminal Court.

**Unless I – Désirée Elisabeth Stokkel – in my legal position as UNSG want to exercise UN-sanctions; this window of opportunity is closed.**

We, the inhabitants of the Netherlands,  
are united in faith in our intelligence & self-efficiency.  
Visible and touchable in equality between people and organizations.

We build our nation in the Human rights & freedoms of the Fairtrade & Eko economy. Technology is a product developed by mankind and inspires and encourages us to build this lifestyle, but it will never overrule mankind. The nation the Netherlands on Planet Earth, will be passed on to the next Dutch generation children still to be born.

Visible and touchable in equality between mankind and nature. It is expected of highly developed intelligent civilized Citizens in the Netherlands to apply the full Constitution 2014-2016 voluntarily and legally correct for problemsolving in daily lives.

## **UN-treaty Humanrights Financial Police**

The State parties to this Convention:

Provide the National Police on the territory of the UN-memberstate with an Unit Humanrights Financial Police, or the Financial Humanrights Police.

The Unit Humanrights Financial Police owns the authority to put a fine on each person who refuses to conduct the Constitution of the UN-memberstate, the UN charter – the Torture treaty – Human rights treaties.

This Convention determines the method of work of the Financial Humanrights police. And will be conducted by the Netherlands, with the targets:

- To stop Dictatorship Netherlands and to replace this DNL with the Republic Netherlands
- To make the International Criminal Court operate like a fair Criminal Court anchored in the UN charter – Human rights treaties – Statute of Rome + other conventions.

This Convention will be conducted by all Units Financial Humanrights police in all UN-memberstates, with the targets:

- Standardization of International law = each UN-memberstate works with the identical Fine Punishment-system against violations of the Constitution + National law + UN charter + Torture treaty + Human rights treaties.
- The removal of all time – energy - money wasting bureaucratic legal procedures from the current Justice-system for the punishment of civilians & organisations.
- To simplify the thinking – & behavioral patterns for the Individual civilians & Organisations in relation to punishments.

By fine-tuning the methods of work of the Humanrights Financial Police with the Arbitration-courtsystem with its legally obliged procedure Problem-solving solution for Conflict-ending, problems will be kept small and solutions for problem-solving will be conducted on shorter timelines. Civilians can no longer sabotage the process of the legally correct lifestyle anchored in the Constitution – National law – UN charter – Torture treaty- Human rights treaties.

The Convention Humanrights Financial Police builds in merge with the Convention Arbitration for Problem-solving Justice, a new Civilization for the People which will also be Robot-proof. Both Conventions are to be handled as a duo.

## Article 1 Installation Financial Humanrightspolice

1. Each UN-memberstate opens a Unit: Humanrights Financial Police, or Financial Humanrightspolice.
2. The Unit Financial Humanrightspolice is a department of the National Police.
  - a) This Unit Financial Humanrightspolice is a self-supporting Unit within the National Policeforce, stationed in the Taxoffice-system.
  - b) This Unit Financial Humanrightspolice has the national authority to put a Fine on every Individual civilian & each Organisation as a punishment for not conducting the Constitution – National law – UNcharter – Torturetreaty – Humanrightstreaties; nobody is above the law.
  - c) This Unit Financial Humanrightspolice operates based on a **Standard Fine-system**, as is determined in this Convention Humanrights Financial Police; they work with an internal Financial Department which will make it possible to put the Humanrights-fine into action and to cash the amount of money involved with this Fine.
  - d) This Unit Financial Humanrightspolice opens an internal Commission for Objections against the Humanrights-Fine; the internal Objection-procedure will be conducted in line with the demands determined in the Convention Arbitration for Problem-solving Justice.
    - I. The Commission Objection against the Humanrights-Fine provides in a Decision Humanrightspolice that details if the Humanrights-Fine is put lawfully on an Individual or Organisation or not.
    - II. The Appeal-procedure against the Decision Humanrightspolice issued by the Commission Objection against the Humanright-Fine is a procedure with the Arbitration-court-system of the Police or Taxoffice. The Complainant / Demanding party must exercise the Convention Arbitration for Problem-solving Justice.

In the Netherlands the Complainant / Demanding party must also conduct the Constitution Republic Netherlands.
  - e) Persons who refuse to pay the Humanrights-Dine without starting an Objection-procedure, are charged by the Unit Financial Humanrightspolice at the Arbitration-court-system for the Police or Taxoffice.

3. **Trained Police-officers who have completed an official Study for Police-officers will be appointed in a labourcontract at the Unit Financial Humanrightspolice.** These Police-officers may put a Humanrights-Fine on every Individual or Organisation: always and everywhere on national territory of the UN-memberstate of their passport. All Police-officers who put a Humanrights-Fine on an Individual or Organisation have a **Licence** for this Legal-task.

I want to write this Convention in the best simple use of English available...which is rather complicated when you need to cut down on bureaucracy-terms.

4. The Unit Financial Humanrightspolice can authorize **Civilservants with an Order to detect crime**, with a special **Licence** for putting up the Humanrights-Fine.
  - a) These Civilservants with an Order to detect crime must complete an internal training Humanrightspolice-Fine & Arbitration-court-system and pass an Exam.
  - b) An Exam Humanrightspolice-fFine & Arbitration-court-system for Civilservants with an Order to detect crime must be completed with the mark 6 (six). C-level in English.

A Civilservant with and Order to detect crime only obtains a Licence for putting on a Humanrights-Fine when he or she is in the possession of the Diploma / Degree Humanrightspolice-Fine & Arbitration-court-system.

- c) A Licence issued by the Unit Financial Humanrights-police is legally valid for a period of 5

(five) years. For Civilservants with an Order to detect crime. After 5 years a Re-Examination on the upgrade of Justice is compulsory.

- d) The Unit Financial Humanrightspolice withdrawns a Licence from a Civilservant with an Order to detect crime, as soon as the owner of this Licence makes himself or herself guilty of violation of the Constitution – National law – UNcharter – Torturetreaty – Humanrighttreaties.

A Civilservant with an Order to detect crime whose Licence is being withdrawn by the Unit Fiancial Humanrightspolice, can only obtain a new Licence:

- I. After this person has completed all Punishments inherent to his or her criminal behavior, legally correct.
- II. He or she must pass a New Exam Humanrights-Fine & Arbitration-court-system with a mark 6 (six). C-level in English.

- e) The Education-curriculum + minimal Costprice of the course Humanrightspolice-Fine & Arbitration-court-system + Exam costs will be determined – annually – by the Unit Financial Humanrightspolice.

The Course Learning Objectives are to be accredited by the PrimeMinister of the UN-memberstate. This proces can only take place when the PrimeMinister personally conducts the Constitution – National law – UNcharter – Torturetreaty – Humanrightstreaties, at home & work.

In the situation in which the PrimeMinister does not complete his or her legal obligations, the Unit Financial Humanrightspolice can select an Organisation who accredits the Course Learning Objectives; this is a Public procedure. Civilians do not have to pay for information about the content of the Course Learning Objectives & Accreditation-decision.

## **Article 2 Standard Fine-system of the Unit Financial Humanrightspolice**

1. **The targets for implementing the Unit Financial Humanrightspolice in each UN-memberstate are:**
  - a) Synchronizing the International Punishment-systems, into a strict simplified bureaucracy.
  - b) Equality in Justice for all civilians & organisations on Planet Earth.
  - c) Transperancy of crime.
2. Each UN-memberstate maintains a Standard Fine-system as instrument for putting a punishment on an Individual & Organisations in case of violation of the Constitution – National law – UNcharter – Torturetreaty – Humanrightstreaties; as determined in this Convention.
3. Each UN-memberstate puts on every Individual or Organisation a first Fine of 100 euro / 100 compartium as punishment for not conducting the Constitution – National law – UNcharter – Torturetreaty- Humanrighttreaties. Every criminal pays at least a 100 euro / 100 compartium Fine, even when also a much higher Fine according to the Lawbooks must be payed, next to the Payment for Damage to the Victim.
4. Each UN-memberstate removes ALL fines from her Punishment-system in the current Lawbooks, when the amount of the Fine is lower than a 100 euro Humanrightspolice-fine. Thus: Planet Earth works with one standard minimum Fine of 100 euro per criminal activity; no Fine on Earth can be cheaper than 100 euro / compartium.
5. Each UN-memberstate can transform the 100 euro / 100 compartium Fine of the Humanrightspolice into a Community Service worth of a 100 euro / compartium, for every person or organisation who can not afford to pay a 100 euro/ compartium Fine to the Taxoffice.

This code gives each UN-memberstate to possibility to rebalance the 100 euro Fine with the National Average Yearincome per Household. In a poor nation the 100 euro Fine can be replaced with 3 hours Community Service, for example.

6. Each UN-memberstate opens an Arbitration-court-system-procedure against a person or organisation who is being punished for the 2nd (second) time by the Humanrightspolice with a Fine; this Arbitration-judge writes a Courtverdict for definite Conflict-ending for the criminal.
  - a) Each UN-memberstate can offer a criminal who must be forwarded to the Arbitration-court-system 'a Contract in which both parties – criminal & UN-memberstate – present a Problem-solving solution for Conflict-ending, which must be conducted by both parties'. The National Police determines in this contract that the criminal must conduct all legal obligations, within a period of 1 month.
 

When this Contract fails to end the conflict, a 3rd (third) Humanrightspolice – Fine – situation occurs. This case file will be forwarded to the Arbitration-court-system for a courtverdict by the Arbitration-court-judge.

The National Police demands with the Arbitration-court-system of the Police of the Taxoffice that the criminal completes all legal obligations legally correct.

The National Police may also demand that the criminal exercises for Problem-solving behavior: Medical assistance – Education – Community Service – Electronic surveillance – a Stay in Prison.
  - b) Each UN-memberstate that is being confronted with stubborn criminals can demand with the Arbitration-court-system:
    - 365 Days Community Service under Electronic Surveillance on the lowest Social Income possible in the UN-memberstate.
  - c) Each UN-memberstate that has to turn multiple times to the Arbitration-court-system with the aim to stop the criminal, can request the Arbitration-court-judge to forward this criminal to the Criminal-court for severe punishment.
7. **Each UN-memberstate works with a Standard Fine-system for Fines with a value worth more than a 100 euro / 100 compartium and lower than 365 Days Community Service under electronic Surveillance on the lowest Social Income possible in the UN-memberstate.**
  - a) Each UN-memberstate only works with Fines that amount 500 euro / compartium or 1000 euro / compartium... or a multiplicity of this amount... until an amount lower than 365 Days Community Service under Electronic Surveillance on a Poverty-salary is reached. In Holland this lowest Social income = 18.500 euro / compartium per year. All fines determined in current Lawbooks – an which are higher than the amount of 18.500 euro / compartium stay in power; in the nearby future these fines will also turn into amounts of money that are multiplicities of 500 and 1000 euro.
 

So... The Robot of the Humanrights Financial Police and the one of the Arbitration-court-system Police or Taxoffice only work with amounts of Fines of 100 – 500 – 1000 – 1500 – 2000 – etc...euro/compartium; filled up to an amount that is lower than the 365 Days Community Service under Electronic Surveillance at Poverty-salary... that rules in the UN-memberstate.
  - b) Each UN-memberstate works with a Public Schedule that shows that the currently existing Punishment-system active in the Lawbooks of the UN-memberstate is being transformed into the new Humanrightspolice-Fine system, from a 100 euro / compartium Fine up to the 365 Days Community Service under Electronic Surveillance on the lowest Social Yearincome the law provides in.
  - c) Each UN-memberstate works next to the Standard Fine-system with a Standard Community Service-workhours-system too; explained is HOW many hours Community Service a criminal must complete as a substitute for the payment of the Standard Fine put on by the Financial Humanrightspolice.
  - d) Each UN-memberstate makes the punishment-system Humanrightspolice-fine & Community

Service available for Minors, children from the age of 12 years on.

8. In each UN-memberstate the Financial Humanrightspolice can complete all casefiles of all criminals – when there are no persons with physical injuries or death persons. As soon as a person is being wounded or murdered by a criminal, the Humanright Financial Police must forward the casefile to the Arbitration-court-system or Criminal-court-system for a Courtverdict; unless the Victim settles for a Contract closed between the Financial Humanrightspolice – the Criminal and the Victim.
9. Each UN-memberstate opens an Arbitration-court-system for every Victim caused by a criminal who does not conduct that Constitution – National law – UNcharter – Torturetreaty – Humanrightstreaties; The Victim always demands a Settlement & Payment for Damage with the Arbitration-court-system in the UN-memberstate opened to handle the casefile.
10. Each UN-memberstate can determine that criminals, who are imprisoned for a criminal offence – on a sentence worth less than the value of 365 Days Community Service under Electronic Surveillance on the lowest possible Social yearincome receive a substitute ===== Humanrightspolice-Fine – Community Punishment – 365 Days Community Service under Electronic surveillance on a Poverty-income for a year, on the condition that this substitute is 'a reward for Good behavior in prison'.

**Examples:**

**An aggressive person** who torments or beats up another humanbeing, receives the Humanrightspolice- Fine of a 100 euro. The Torturetreaty becomes active. The Police can itself, righth now, write a contract in which the Victims and criminal agree on a Settlement & Payment for the Damage. The Victims can also demand that the criminal is forwarded to the Arbitration-court-system where the Victims demands a Settlement & Payment for the Damage. When the criminal has no financial means to pay for a Damage to the Victim, this Victim may also demand a Community Service this criminal must complete, as a substitute.

**Somebody cycles without a light** in the dark and pays the standard 100 euro / compartium Humanrightspolice-Fine. Does this person cycle without a light again, one week later... this will result in a fFne of 500 euro, or a Community Service at the value of 500 euro / compartium.

**A Racer, a Druk or Drugs-user on the road** causes an accident in which another person becomes injured or dies. This criminal is immediately forwarded to the Arbitrage-court-system or Criminal-Court. All Legal casefiles in which a human body is wounded are to be sent to the Arbitration-court-system or Criminal-court. This criminal also pays the 100 euro / compartium Humanrightspolice-Fine, together with all other Fines determined in the current Lawboosk higher than 100 euro & Payments for the Damage.

**A member of the personnel steels from a compagny products worth of 10.000 euro;** this person can get away with a Humanrightspolice-Fine of 10.000 euro, now the lowest Social Income possible in Holland is 18.500 euro for 1 person per year. ... Or the casefile can be forwarded to the Arbitration-court-system for a Community Service. This criminal can be lucky, once... The second time this criminal steels, it will automatically result in a 365 Days Community Service under Electronic Surveillance on the lowest possible Social Yearincome. This is already determined inthe RepublicNL-laws. A higher prison-sentence is also available.

**A Boardmember working for an organisation earns a milion-euro yearincome, recieves a Humanrightspolice-Fine of a 100 euro / compartium** for not conducting the Constitution – National law – UNcharter – Torturetreaty – Humanrighttreaties. The second time this criminal 'Performs a Dictator-role' a higher Humanrightspolice-Fine will be put on this person for the amount of damage he or she causes in the community... Or it will result in a visit to the Arbitration-court-system for a 365 Days Community service under Electronic Surveillance.. on the lowest permitted Social yearincome available in the nation. In that year the Thief will not earn a milion-euro / compartium salary. In RepublicNL the Arbitation-judge determines a 365 Days Community Service, but its prescribed in a Courtverdict of the Constitutional court = cut down on many many many appeal-procedures.

Victims can always start a procedure with the Arbitrage-court-system for a Payment for Damage.

**For transparency:**

**All HR-fines lower the 100 euro / compartium disappear from each UN-memberstate.**

**All existing HR-Fines in a UN-memberstate are to be simplified into Fines for the amount of 100 – 500 – 1000 euro / compartium or a multiplicity if this amount = to punish mankind Robot-proof.**

**All Humanrightspolice-Fines can be transformed into a Community Service = maximum 365 Days Community Service under Electronic Surveillance on the lowest legally approved Social Yearincome.**

**Each UN-memberstate can determine for itself which Community Service is inherent to which amount of money of a Fine; each UN-memberstate determines if a criminal receives a Fine, a Community Service or Stay in Prison.**

### **Article 3 Put into power by decree**

I – UNSG & IPM DésiréeElisabethStokkel – put this Covention Humanrights Financial Police into power by decree, submitted by the criminal UNSG AntonioGuterres – Embassy of Portugal in Thehague – and [PD@un-org](mailto:PD@un-org). The FIOD in Holland receives this print with my signature.

Each Individual civilian or Organisation in each UN-memberstate can start to use this new Convention right now. Because I – UNDG & IPM – put it into power by decree with the UN. It must be used in DUO with the Convention Arbitration for Problem-solving Justice. The only demand is that the Individual or Organisation who puts the new UN-conventions into action recognize the 100% criminal methods of work by UNSG AntonioGuterres inside the InternationalCriminalCourt-system – Ministry of CommonAffairs in Holland – the Dutch Monarchy.

### **Dictatorship Netherlands is in a civil war.**

The Media-makers in Holland only support the murderers = they ignore their personal Legal obligations. Thanks to this Convention the FIOD is obliged to stop & punish these Media-makers = they can no longer co-work with Criminal Judges – Police – Defense – Rulers in NL anymore to keep themselves in power in their Dictator-position. This will reduce the level of crime in Holland.

### **Real life for the Victims in DictatorshipNL.**

Persons or organisations who can no longer turn to a Court of law in order to stop conflicts, are being removed from the nation – with torture & murder – by the Parliament + Municipal + District parliament + Judiciary + Barassociation + Council for Legal aid + National Ombudsman + Education institutes with only 1 sentence: 'People & Businesses can no longer turn to a Court of law'.

This position of being lawless in Holland is not being ended by DictatorMarkrutte – King – Members of parliament – Police & Defence personnel... or other persons against whom I – DésiréeElisabethStokkel – started an ICclawcaseNL, with the aim to end DictatorshipNL... and to let the RepublicNL evolute.

In The Netherlands I have handed over the courtcasefile of the InternationalCriminalCourt-lawcase against NL from the Ministry of CommonAffairs to the FIOD = Financial Police of the Taxoffice. Via the 100% criminal UNSG AntonioGuterres.

I have chosen for this move now the Ministry of Common Affairs only harbours criminals. Besides.... The Ministry of CA keeps the 100% criminal Head of Police ErikAkerboom in his labourcontract.

The 5 Top-commandors of the Defence -Ministry against whom I started an ICCClawcaseNL are also kept in their powerfull and criminal position, in they eye of the public... online...  
The Head of Police and the Defence-Commandors lie to their own lower-ranked personnel about the national security in Holland.  
Only criminals know how the realistic national security in the Netherlands is set open for criminals.

The FIOD is the only Police-unit left in Holland who can turn DictatorshipNL into a State of Law RepublicNL. The Taxoffice in Holland more often disapproves of the methods of work used by the Ministries – Monarchy – Parliament = many billions are being wasted on criminal manipulations.

The FIOD in Holland can, from today on, 'collect money thanks to the Humanrightspolice-Fines and re-invest this money in the reset of the State of Law, design Republic'. Even when the Courts of law in DictatorshipNL refuse to clean themselves up and reset themselves to guarantee Entitlement to Justice for all Individuals & Organisations.

And the FIOD also has the authority to make other UN-memberstates adjust itself to the demands – under my IPM & UNSG DESTOKKEL flag – put on them by the Unit Financial Humanrightspolice, during the removal of the Ministry of CA personnel and other Dictators from Holland.

In DictatorshipNetherlands the Ministry of Common Affairs can only be a sound legal authority under Command of IPM DésiréeElisabethStokkel, from 18nov2016 on.

The UnitedNations can only be a sound legal authority under Command of UNSG DésiréeElisabethStokkel, from 1 january 2018 on.

## **UN Convention Arbitration for Problem-solving Justice**

The State Parties to this Convention:

Present a Highspeed-frequency route in the Cloud to Justice for every Individual Human being on Planet Earth, in accordance with the principles proclaimed in the Charter of the United Nations and Humanright treaties.

On the Robot-timeline for Fairtrade-economies, the People are entitled to a courtsystem that guarantees the Individual Human being on Planet Earth a system for problem-solving justice in line with the speed computers produce information.

The Individual Human being must be able to outsmart the Robot, anytime and any place.

In this context the Arbitration-court-system provides a transparent Cloud for the creation of justice in any Culture and during Globalisation during the Fairtrade movement.

Which inspires the Individual Human being to produce solutions for problems, close home and internationally.

### **Chapter I Relationships and obligations**

#### **Article 1**

1. Each State Party opens an Arbitration-court-system on national territory.

2. An Arbitration-court-system is a national court of law where every Individual Human being or Group of persons is obliged to start a lawcase for conflict-ending.
3. All national parties in the conflict – on national territory – must present a legally correct founded solution for conflict-ending to the Registrar and Judge of the Arbitration-court-system. This solution which end the conflict must be anchored in the Convention for the United Nations – Humanright treaties and National law.
4. A State Party guarantees the People an Arbitration-court-system which presents to the People a databank with all produced Arbitration-court-verdicts accessible for the public.
5. Each Arbitration-court-verdict presents 'the Best legal solution possible for ending the conflict'. A-court Registrars and – Judges are obliged to build a legal framework in the Arbitration-court-verdicts that prove that the Constitution – National law – United Nations Charter and Humanright treaties are put into power for a secured closure to the conflict.
6. Arbitration-court-verdicts are on Planet Earth to build and distribute knowledge for conflict-ending which runs hand in hand with the information produced by Robots – Computers.

Growth Hacking in the Marketing-world results in Information–Internet-Platforms unknown to the People; or visable to the People, but Human beings can't work with them or can't defend themselves against criminal systems. Therefore Planet Earth needs a Growth Hacking system for Court-verdicts too; the People must be able to collect trustworthy information on the Internet, build thanks to Court-verdicts.

Each Arbitration-court-verdict builds a small part of a solution for a conflict, which thanks to Growth Hacking results in a larger solution for bigger problems.

7. In case of a continueing conflict after a Court Ruling by the Registrar and Arbitration-court-judge, any person may initiate legal proceedings with another national Court of law of the State Party.

5. A State Party may open an Arbitration-court-system for the Militairy and Bordercontrole for

solutions for conflict-ending on national territory.

#### Article 4

1. A State Party provides in a national Law – Procedure Code – for the procedure to be exercised by national Parties who turn to the national Arbitration-court-system with a solution for conflict-ending.
2. The national Arbitration-court-system is a public court of law.
3. The national Procedure Code for starting an Arbitration-court-system lawcase contains instructions for the methods of work for: the national Parties who start the A-court-lawcase + Registrar and Judge + Closed session court + Courtroom + Databank Arbitration-court-verdicts.
4. The national Procedure Code determines for national Parties who start the A-court-lawcase: File construction + Payment Court fee + Timeline for following instructions Registry + Mediation if needed + Courtroom if needed.
5. The national Procedure Code determines the methods of work for the Registrar and Judge + Closed session court + Courtroom = Arbitration-court-verdict.

**New on Planet Earth** is the Closed session court for the Registry and Judge, where the Registrar analyzes the file which has been submitted to the Registry together with an official Judge. Main target: cost -saving during Court-procedures.

When Parties are in conflict and they both present a solution to the A-court, the remaining conflict is about the question: 'Which solution is the Best legalframe work possible?' The knowledge of the Registrar and A-judge in the Closed session court can be the last missing piece of the puzzle for the agreement, all the involved Parties are searching for.

The Registrar draws a list with instructions for all involved Parties during the Closed session court and sends these instructions to all Parties for the upgrade of the solution for the conflict. First Target for all involved Parties: to come to a Settlement & Materialistic agreement.

When all involved Parties implement the list in their solution, the Registrar can write the official Arbitration-court-verdict for the Parties. This Court-verdict written by the Registrar is the Settlement & Materialistic agreement, agreed upon by all involved Parties.

The Registry publishes the A-court-verdict in the Public databank of the A-court; of course the Registry sends a A-court-verdict to all involved Parties to the case.

The Judge can decide during the Closed session court that it is wiser to hear all Parties involved in courtroom, for the sake of the needed solution... or for the making of Jurisprudence for the nation.

During the hearing in the courtroom all involved Parties must come to a solution for the conflict they must prove that they have proceeded on the instructions given to them by the Registrar of the A-court.

In this situation the A-judge writes the A-court-verdict after a hearing in courtroom. The Registry publishes the A-court-verdict in the Public databank of the A-court; of course the Registry sends a A-court-verdict to all involved Parties to the case.

Registrar and Judge at the Closed session court decide on:

- a) Complexity of the case:  
Can the Registry close the case with an Arbitration-court-verdict after deliberation with the A-judge in the Closed session court or must the file be brought to courtroom?  
Which instructions do all Parties involved receive from the Registry?

Timetable for procedure – closure at the Registry .  
If needed appointment of a Mediator and timetable – closure of the case in courtroom.

b) Mediation needed, or not:

The Registry has a list of Mediators – lawyers & specialists – who shall be appointed for a case by the Registrar.

A standard consult of three hours with a Mediator can be demanded by the A-judge and must be accepted by all involved Parties to the case.

The Mediator writes a report and sends it to the Registry of the Arbitration-court.

In the Closed session court the Registrar and A-Judge decide – again – on the timeline – closure of the case.

For the second time is the decision made:

'Does the Registrar write the A-court-verdict for the Settlement & Materialistic agreement all involved Parties agreed upon? Or... is a hearing in the A-courtroom in front of a Judge needed?

6. The national Procedure Code determines the methods of work for the Arbitration-court-system concerning the production of the Arbitration-court-verdict + the way it is published for the People.
7. The Registrar and Judge working with the national Arbitration-court-system can determine together whether a trial should take place behind closed doors, to protect the privacy of individuals, or not.

## Article 5

1. All involved Parties in the case who are an active actor for the production of the solution for conflict-ending pay a Court fee to the Registry.
2. The Registry determines 'who the involved Parties for the payment of the Court fee are'.
3. All involved Parties in the case pay the Mediator for a three hours consult with the Mediator.  
Example:  
In Holland all involved Parties pay a 150 euro to the Mediator for a three hours consult.
4. The Registry works with a public list for Mediators and a standard Pricelist for a three hour consult.
5. The Mediator pays the Registry of the Arbitration-court-system 15% Administration costs, calculated over the standard Price for a three hour consult on the Pricelist of the Registry.

Example:

In Holland, the Mediator pays 15% per involved Party in the case over 150 euro = 22,50 Administration costs to the Registry of the A-court.

Are 8 Parties a participant in the solution for conflict-ending, than 8 Parties pay a 150 euro for Mediation to the Mediator.

The Registry receives 8 x 22,50 euro = 180 euro from the Mediator for Administration costs.

The Arbitration-court-system does have one nasty tone for some People, namely:  
' the People are forced to stop tormenting – fighting eachother and are also forced to stop wasting Taxmoney on the creation of a violent bureaucracy'.... and worse...'

What is there to fight about?

When the national Arbitration-court-system can not stop the conflict, the national Criminal Court or an other national Civil court becomes active in the file of the fighting Parties. The involved Parties to the conflict clearly want to fight, which is considered to be 'violation of the Constitution and national law – Torture – Crimes against Humanity... and is to be punished in accordance with national and international law in the Homeland'.

The UN Commission for the Arbitration-Court-systems to the Convention Arbitration for Problem-solving Justice... is only a platform for the collection and distribution of 'Good – or Bad national

### **Chapter III Educational lesson from the Future-bringer**

There are Human beings on Earth who do want to die in the Evolution of Wisdom.  
Wisdom is anchored in the Fairtrade & eco movement.

On Planet Earth 'Wizzkids in the Science-world' are being recognized as 'Wizzkids'.  
Wizzkids in the World for the growth of Social Intelligence are being ignored or killed.  
Or turn to suicide...

Shame on the United Nations for this practice!

The UN itself has become a Triga-warmaker, now its member State Parties 'shop in the Charter for the UN and Human righth treaties, when they want to be free to torture – kill Human beings'.

Holland 'shops just as much as Sudan in the UN-charter and Human right treaties', for example.  
Life in Laziness, build – distributed – and inflicted on Individual Human beings who can no longer turn to a court of law for the Claim on their Fundamental Constitutional and Humanright. Laziness and unscrupulous behavioral-patterns by Judges – Lawyers – Lawmakers, as Dutch murder-weapon.

This practice must stop!

The Arbitration-court-system ends Laziness and forces Individual Human beings to take responsibility for the realization of their 1-Persons-toko. The solution every Individual produces for conflict-ending does not have to be perfect; it must prove that the Individual wants to realize the Fairtrade & eco movement for a Life in Evolution of Wisdom.

Law and Treaty must realize the growth of Social Intelligence for the Social-Wizzkid, next to the Science-Wizzkid.

**Love is Love, War is War.**

**Never say:'I make War to prove that I Love you'.**

**When a person has the time and opportunity to start War,  
the system is ruled by Warmakers.**

**And the person who wants to build Love for the Evolution of Wisdom,  
is being demolished first by a FAKE peace-bringers'system.**

**The Arbitration-court-system removes the freedom to demolish another Human body,  
from Planet Earth.**
