Urmassoorumaa,

I am going to publish my emails of last week to you on my site, now.
 Today I also make a video in which I explain 'which psychology-lesson
 I have learned... and what I undertake for which reasons'.

Urmassoorumaa,

At 06.12 hrs I wake up with you on my mind again.

I know I have shaken you up this week.

That fact that you ignore me, already proves that you want to be corrupt,
 want to be a mass-murderer on the ICC-lobbyplatform.

I hoped you would change, especially now EU goes flat.
 Cyprus understands my videos.

Something in me, warns me

'Urmass is going to help politicians build a Hitler-bureaucracy;
 he takes sides for EU-politicians and the Kremlin.
 He does not want to build fair-working courtsystems,
 not demand politicians to change their methods of work'.

Well, I have given you until 2april2013.
 So it'll be.

'Men must deeply hate women'....
 Enjoy the demolition of a woman.

I have learned a lesson here.

Over the past years, I should have behaved more like I did last week.
 Make timelines for decision-making shorter.

I should have explained the people's evil behavior much earlier in the ICC-world.

EU will fall apart, the people suffer..while politicians & VIPs party.
