[Urmas Soorumaa](#)  
Tallinn, Estonia

## I'am going down fast, but I plan to last

---

**Urmas Sõorumaa,**

This letter is published on [www.nlfschool.com/workbook.html](http://www.nlfschool.com/workbook.html).

2 years ago you were hardly on the Web.

Today I refer to your video, accepting that you don't want to be in the media as a VIP for fanmail.

But its time for some EQ-talk, sir....

- **You own half Estonia.**
- **Complain about the local entrepreneurship-mentality.**
- **Advice EE-entrepreneurs to take their investments abroad.**
- **And ... your video is spoken in Esti...**
- **You do not ignore my ICC-case, but work around it.**
- **EE-parliament & businessmen are annoyed because of you. Provocation!**  
What do you think? I'll survive this crisis, so everybody who goes bankrupt can leave!?

**If you give up...**

**'How on Earth can I survive my ICC-case – make parliaments & people work with NLFs - , so you can expand Good-practices in Estonia .... & ...abroad'?  
Some contradiction here!**

**You may not give up on Estonia, because I want you to own that country!  
I need you... perhaps even more than you realize....**

- As a woman of 44 years old I am having a very difficult time, now my life is lost. Powerful people keep me poor & lawless for their individual economical reasons. It are those reasons that cause crisis on Earth, next to wars. Wars are only stopped with weapons, not with courtsystems.

I say lost, because I was 36 when I divorced and made plans 'to restart life'. Being sabotaged & mentally tortured in every possible way, I have to undergo the criminal chaos in NL...&...ICC. It hurts like hel, when you discover that 17 million people are against you...and will stay against you for their lazyness. As if being lazy & living without Evolution is the most important thing on Earth!

As a mother I am living on a complicated timeline. I have worked so hard to survive my own horrifying youth...and because I am a smart-psychology-survivor I am being blocked, tortured...and ignored in case of Justice. Can't educate my children in the way I want to educate them! Being forced - by government & justice - 'to be a bad mother in segregation', I have to watch some painful behavior in my kids.

Poverty breaks the Evolution & Evaluation in kids completely down!  
My daughter cries 'because there's nothing she can do'= we are too poor to participate in community-life. When kids have No nice family 'one can drop death', overhere. My son was born with minor-Autism...and I have to work very hard in a role of therapist-mother, to make sure that he will not grow into a major Autist/Border-liner. NL-powerful-people grow criminals as others grow herbs & vegetables.

I know for sure that our school-system enhances painful modern mental-conditions in kids. Think: Fear for failure + lack of ambition + superfluous dyslexia in kids + No trust in mankind anymore, because nobody wants to help build a better standard for living + smart-thinking for which they are being punished by lazy teachers + No believe in science, because most parents never learned to live in science +++++ more community-violence while our police is more corrupt & retarded than they have ever been before +++++

Fortunately, I have a good therapist for my son. At least in 2008/2009. Expenses-claim-rules in our healthcare-system, make me believe that this therapist 'doesn't get payed anymore', but he refuses to tell me...

- I can't explain 'how sick I feel due to the enforced lifestyle on me in NL'. Gods & Goddesses have given me the assignment to put EQ into words and build social healthy entrepreneurship for Young Adults...but how can I succeed when nobody wants to comprehend the impact of my acts?

O, things are changing...

Some CEOs & boardmembers quit their jobs when they discover my ICC-case and understand 'how they are being misguided & misused as a cover for dictators-crimes by our MPs'. They disappear from Earth, because they don't want to support official dictators and war-crimes taking place within ICC.

But they don't step forward to work with me for solid NLFs!

Meaning: All good entrepreneurs – who can make a difference – turn against NL & parliament = more brainless facism in parliament after the next Elections.

Or, powerful people only want to steal from me with sick aggressive competition!

**Its difficult for me to live with the knowledge 'that Earth is better of if civilization only would help me turn ICC into a fair courtsystem'.**

### **Last night**

The Galaxy gave me acces to people's brain - elsewhere on Earth – who already know 'how to make a system work without power'. I still have their faces on my mind, plus the conviction that they have shown me something I can do myself, but I can't remember the words.

Is always the same!

I do get all the EQ-moods I need, finding words for this location in EU is my task.

There was something creepy about it; I must proceed more in psychopatic-rituals, where I normally stop & move on to Love.

O my God, I already know a lot about Hatred. Why do I have to stay in Hatred for a longer period of time? I hate it!

Urmans, you were not one of the faces. But do you know, what I need to do?

Not to a full extent.... You send EE-entrepreneurs abroad!

### **You must Evolute & Evaluate**

You must open a website on which you explain what Estonia, mainly Young Adults must do in order to survive on Earth. In Esti & English. EE-media is too childish.

You don't have to add an address or email-address. Its your new taks to share something of you body-soul-spirit on the Web for the Future; give away knowledge for free to overcome lazyness and lack of education. [Your book in PDF on the Web can't be opened here? Is it your book; do you know that its unreadable?]

This letter is sent by mail.

**Have a life in my EQ-moods,  
desiree stokkel**
